

ABDALLAH SAMY SAEED SHARAF EL-DIN

Menofia, Egypt | +20 103 185 2488 | abdallahabosharf@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Software student focused on Flutter/mobile development with hands-on experience in Dart, Dio, REST APIs, Cubit/BLoC concepts, full-stack web development, networking, and IoT. Completed the Artificial Intelligence Ambassadors Program by NTI & ESE and currently completing Flutter Development Training at NTI. Strong communication, presentation, teamwork, and fast-learning skills.

EDUCATION

Misr International Technological University (MITU) - Fayoum Technological College | *Software Department - Second Year Student*

Al Salam Secondary School for Applied Technology - Engineering and Technology | *Mechanical Engineering Track*

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, Dio, REST API Integration, Cubit/BLoC Concepts, Responsive UI

Programming & Web: C, C++, JavaScript, PHP, HTML, CSS, Node.js, Express.js

Backend & Tools: Supabase, SQL, Git, GitHub, VS Code, Android Studio, Postman, Arduino IDE

Networking & IoT: Cisco Packet Tracer, IP Addressing, Routing, Switching, VLAN, RIP v2, DNS, FTP, Arduino, Motors, Sensors

TECHNICAL TRAINING

Artificial Intelligence Ambassadors Program - NTI & ESE | *Completed*

- Practical training in AI tools, data analytics, AI applications, responsible AI, and applied project work.

Flutter Development Training - National Telecommunication Institute (NTI) | *In Progress*

- Selected trainee currently building practical skills in Dart, Flutter UI, API integration, state management concepts, Git/GitHub, and Android workflow.

PROJECTS

BMI Calculator App | *Completed* | *Flutter Mobile Application* | [GitHub](#)

- Built a multi-page Flutter app using Dio and a BMI REST API to display BMI, risk, summary, and recommendation results from user input.

Movie Discovery App | *In Progress* | *Flutter API Project* | [GitHub](#)

- Building a TMDB-powered movie app using Dio and Cubit/BLoC-style states for carousel, now-playing, upcoming, popular, and top-rated content.

Raykons Gaming Platform | *Academic Full-Stack Web Project* | [GitHub](#)

- Developed frontend pages, Express.js backend structure, Supabase/SQL integration, product flows, user interaction, and admin dashboard structure.

Company Network Design | *Cisco Packet Tracer Academic Project* | [GitHub](#)

- Designed departmental IP networks, configured RIP v2 routing plus DNS/Web/FTP services, and verified end-to-end connectivity.

IoT Arduino Hardware Project | *Academic Hardware Project*

- Connected motors and electronic components with Arduino and combined basic software logic with physical hardware behavior.

WORK EXPERIENCE

Recruitment Representative - Vipers Recruiting Agency | *Duration: 3 Months*

- Supported candidate communication and screening across multiple job fields, strengthening persuasion, phone communication, teamwork, and professional interaction.

CERTIFICATIONS, TRAINING & ACTIVITIES

Pearson: BTEC International Level 3 Extended Diploma in Mechanical Engineering; BTEC SRF International Level 2 Diploma in Mechanical Engineering

Military Production: Mechanical Technology Training at Factories 200 and 300; industrial safety, manufacturing exposure, and technical discipline

EDU TECH: School representative; presented technical projects in English at exhibitions and competitions to professional and educational audiences

Industry 4.0 - The Era of AI: Participant in an event focused on AI, digital transformation, and future industry trends

LANGUAGES

Arabic: Native | **English:** B1+ Intermediate
